

Next Education unveils school community App: LearnNext

Beas Dev Ralhan, CEO, Next Education India Pvt. Ltd.

The android-based application is equipped with impeccable features like Knowledge world, Project Ideas, K-12 Wiki and Q&A forum

New Delhi: Next Education India Private Limited, a pioneer in K-12 education recently launched the most comprehensive and user-friendly school community application, LearnNext. This app enables its users to enjoy a convenient and immersive on-the-go learning experience with access to the best of LearnNext's features. Now, one can avail its advanced features like asking a question with voice, or a photo, or in text. High quality content like Lesson Summaries and References, KnowledgeWorld - Videos - Articles - Interviews, Project Ideas are available on mobiles and tablets. The best part is, the app is free of cost and is available at <https://play.google.com/store/apps/details?id=com.learnnext>

Promoted by Next Education, LearnNext offers content based on the CBSE/ICSE/State Board syllabus in a digital; multimedia form both online (www.learnnext.com) and offline through a Windows Desktop client and a tablet client. Its Android App now brings the wealth of its e-learning solutions to a wide customer base, right from teachers and principals, students and parents and the app has already been adopted by 2500 users till date. Targeted at students from classes 6th to 12th of all boards, this figure is expected to triple by the end of January 2015.

Beas Dev Ralhan, CEO, Next Education India Pvt. Ltd. commented, "The newly-launched LearnNext application is an extension of LearnNext.com that is developed with the sole objective of making the arduous process of learning easier for students. Owing to the fact that smart phone technology has penetrated deeply into the lives of students, we decided to develop the app to get LearnNext's most useful features onto the Android platform. Owing to this platform's popularity in India, we wish that maximum users can access it through their personal gadgets anywhere anytime."

The cutting-edge features of the application allow students to be proficient in various concepts through the Wiki which is an encyclopedia of articles and clears queries related to any subject in the board syllabus. One can get insightful answers from a dedicated team of experts on the Q&A forum by merely taking a picture or speaking

out the question and uploading it. One can also get access to a repository of videos, articles and interviews at Knowledge World and use the step wise guidelines on how to complete a project through the feature of Project Ideas & D.I.Y.

The LearnNext Community application assists students in enhancing their curricular and co-curricular skills by sifting through articles, videos and even performs experiments at home. Besides this, they can motivate themselves by reading the inspirational stories of toppers and get useful tips on exam preparation, learning strategies and much more.

The LearnNext app gives your studies a fresh perspective and bolsters your learning in a few easy steps. All you have to do is downloading, install and sign up for free!

Next Education, India's definitive provider of technology-based K-12 solutions, has significantly altered the education landscape in the nation since its inception in 2007. Based in Hyderabad, the company has created innovative products that make the teaching-learning process easy, engaging and effective. Its leading product offerings, such as TeachNext, LearnNext, MathsLab, ScienceLab, RoboticsLab and EnglishLab, are used in over 6,000 schools across the country, transforming the lives of more than 6 million students. Next Education products are mapped to cover the syllabus of CBSE, ICSE and 23 state boards in 8 major Indian languages.
