

## Next Education unveils LearnNext App

The best part is, the app is free of cost and is available.

*Beas Dev Ralhan, CEO, Next Education India Pvt. Ltd.*

**Next Education India**, a pioneer in K-12 education recently launched the most comprehensive and user-friendly school community application, LearnNext. This app enables its users to enjoy a convenient and immersive on-the-go learning experience with access to the best of LearnNext's features. Now, one can avail its advanced features like asking a question with voice, or a photo, or in text. High quality content like Lesson Summaries and References, KnowledgeWorld - Videos Articles Interviews, Project Ideas are available on

mobiles and tablets. The best part is, the app is free of cost and is available. Promoted by Next Education, LearnNext offers content based on the CBSE/ICSE/State Board syllabus in a digital, multimedia form both online and offline through a Windows Desktop client and a tablet client. Its Android App now brings the wealth of its e-learning solutions to a wide customer base, right from teachers and principals, students and parents and the app has already been adopted by 2500 users till date. Targeted at students from classes 6th to 12th of all boards, this figure is expected to triple by the end of January 2015.

**Beas Dev Ralhan, CEO, Next Education India** commented, "The newly-launched LearnNext application is an extension of LearnNext.com that is developed with the sole objective of making the arduous process of learning easier for students. Owing to the fact that smart phone technology has penetrated deeply into the lives of students, we decided to develop the app to get LearnNext's most useful features onto the Android platform. Owing to this platform's popularity in India, we wish that maximum users can access it through their personal gadgets anywhere anytime."
